# 设置Selector

The screenshot displays a Weibo profile page for user 李笑来 (Lixiaolai) and a Web Scraper interface. The profile page shows the user's bio, location (Beijing, Haidian District), education (Changchun University), company (Private), birth date (July 12, 1972), and a bio (Learner and Connector). Two tweets are visible: one from May 22, 2018, and another from June 14, 2018. The Web Scraper interface is overlaid on the bottom half of the page, showing the 'Web Scraper' tab selected. The 'Id' field is set to 'content', the 'Type' is 'Element scroll down', and the 'Delay (ms)' is 2000. The 'Parent Selectors' list includes '\_root' and 'content'. The 'Save selector' button is highlighted.

Save selector | Cancel

# 设置Selector

添加子选择器，不再赘述

# 要点解析

Element scroll down 也是 Element（结构体）

只是多了一个**鼠标自动下拉的功能**

所以，如果要用它抓取数据，也需要创建一个子选择器

# 要点解析

Element scroll down 抓取的是单页  
那如果要抓取所有微博的页面呢？

**提示：结合规律分页**
